SUPACLASSIC

SUPACLASSIC

8'2", 9'2", 10'2", 11'2"

The SUPACLASSIC range is a very versatile range with the perfect mix of the state of the art technology and classic board knowledge!

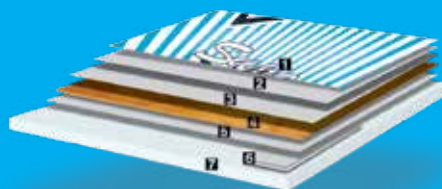

For the wave choose from the 8'2" a purebred short board, to the 9' 2" or the 10' 2", which is one of the best all rounder available. The 10'2" provides wave and all-round character to make the most of every day conditions.

Anyone looking for a board for fun and fitness or for relaxed cruising will be stoked with the 11.2. For sports-minded paddlers.

These boards (except the 8'2") are all equipped with inserts to handle windsurf rigs, so that when the wind kicks in, you can sail away. These boards give lots of options for more fun all the time.

FEATURES

- All boards come with a tri fin fin set up.
- Easy to carry with the ledge handle placed so the board balances perfectly under your arm!
- EVA Deck pad is top of the line- ultra grip/ ultra comfort
- The 9'2", 10'2" and 11'2" comes with windsurf rig intakes

SUPACRUIZE

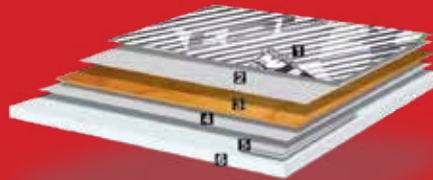

SUPACRUIZE

11'0", 12'6"

The SUPACRUIZE boards are made for gliding, touring, fitness training and racing. They are the perfect choice for riders who love recreational racing, ocean runs and fitness training. Compared to pure race-oriented boards the SUPACRUIZE boards are easier to maneuver and carry, yet stunning fast. The low nose produces an extended waterline, which enables perfect gliding over flat water and is highly efficient in chop too, as it creates extra glide which makes the SUPACRUIZE board accelerate quickly and unreal fast.

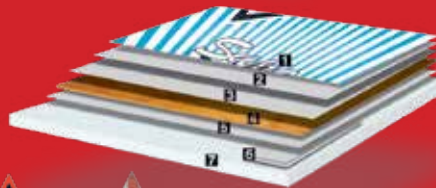

FEATURES

- Easy to carry with the ledge handle, placed so the board balances perfectly under your arm!
- EVA Deck pad is top of the line- ultra grip/ ultra comfort
- Leashes and paddles sold separately

VANDAL iSUP

Inflatable Stand Up Paddle Boards

The introduction of inflatable paddle boards has truly opened up the possibilities for EVERYONE to spend more time on the water. The fact that our boards fold up and fit nicely into a comfortable rucksack means that travelling is a piece of cake. The edges are soft unlike normal SUP's so beginners and kids can practice as safely as possible. Our range also offers great performance not only in flat water but in the waves and for long distances.

New for 2016 we have added a new race board to the line up and for all the boards we have adjusted the thickness, weights and volumes throughout the range.

All our inflatables include a set of fins, a pump, a repair set with a great backpack designed to comfortably carry it all with ease.

With the Vandal 2016 IQ, Free, Touring and Race models we have you covered, from beginners to seasoned SUPers.

IQ BOARDS

The IQ collection is our high end performance based SUPs. New for 2016 we have increased the thickness and volumes throughout the range for added stability and strength. The range has also expanded with the introduction of the 10'5" IQ Flow, 2 new 11'6" and 14'0" IQ Tourings and 2 new 12'6" and 14'0" IQ Race boards.

We wanted to the IQ's lightweight for ease of use, this was achieved with the lightest double layer material that is applied throughout. By using 2 layers we increased the stiffness and providing the ultimate ride over chop and in waves. As with all inflatable SUPs, the IQ's work as great start up boards and comfortable freeriders, but when you want to push the limits and rely on stiffness and managing more challenging conditions, the IQ's come in to their own throughout the range.

IQ SURF

9'2", 9'7", 10'1"

The 9'2" is the smallest board in our iSUP range and now comes with 190 litres of volume. For 2016 we kept the same 30" width but increased the thickness to 5" for added stability. It's short and narrow design will have you shredding through the waves with ease.

Ideal for all the kids and lightweight riders out there.

The 9'7" is the next size up in our IQ SURF collection and has been increased from 200 litres of volume to 215 litres for 2016. The extra volume and width will help all riders with catching those waves that little bit easier. The 9'7" is also a much more stable option, particularly for the slightly heavier or inexperienced SUPer.

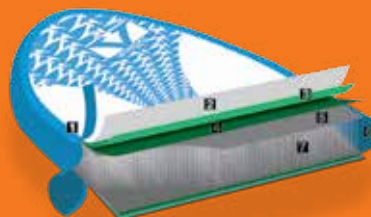

An ideal board for all kids and medium weight riders out there wanting to catch a few waves.

The 10'1" is now the largest board in the IQ SURF collection and comes with 240 litres in volume. This is an ideal board for the heavier rider who likes to play in the surf.

Includes fins, pump, repair set and bag

FEATURES

- Thruster fin set up
- Secure 'lock in' inflation valve
- Moulded fin technology
- Double layered rails to maximise stiffness
- EVA pad on deck
- Soft handle for convenient board carrying
- Heavy duty leash attachment on nose and tail
- Tall high pressure pump designed for ease of use
- Comfortable heavy duty backpack with pockets for extra storage options
- Easy to use repair set
- On deck rope storage system

IQ CONSTRUCTION

- 1 Outside Seamtape 1000D
- 2 Supported Fabric 1000D
- 3 2nd Layer Sheet
- 4 1st Layer Sheet
- 5 Base Fabric 410D
- 6 Siderail 1000D
- 7 Space Yarn 410D

IQ SURF 9'2"

IQ SURF 9'7"

IQ SURF 10'1"

IQ FREE

The FREE range are highly versatile boards which are great for longboard wave riding, cruising around and even going longer distances. We've kept the range consistent stepping up from the IQ SURF's with a slight increase in length, width and volume but maintained the 5" thickness for easy turning and manoeuvrability in the waves and chop.

IQ FREE

10'5", 10'7", 10'9", 11'1"

New for 2016 is the 10'5" board with 260 litres of volume. Adding this smaller size is gives the perfect transition from the IQ SURF range to the IQ FLOW range making it easier to match up the perfect board for any rider.

The FREE range are highly versatile performance boards. The 275 litres and 34" width provides great stability whilst maintaining incredible stiffness with the IQ's double layered design. The 10'7" has an increased volume with an extra 15 litres for 2016 and is a fantastic board optimised for longboard wave riding with the added comfort of extra volume and stability.

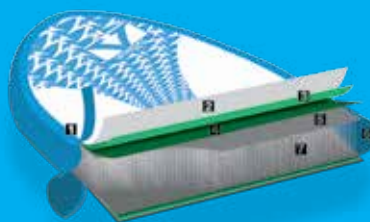

The largest in the IQ FREE range is the 11'1" and comes with 330 litres of volume. For the 11'1" we maintained the thickness of 6" ensuring the maximum stability. The 11'1" is the perfect board for heavyweight riders who want a high performance board.

With the large surface area and volume it also makes the perfect practical board for first timers. This large IQ FREE is the closest you can get to a touring board whilst still maintaining its all round abilities in waves and stability. A great all round board for beginners and heavyweight riders.

Includes fins, pump, repair set and bag

FEATURES

- Thruster fin set up
- Secure 'lock in' inflation valve
- Moulded fin technology (10'5", 10'7")
- Slide in and lock fin technology (10'9", 11'1")
- Double layered rails to maximise stiffness
- EVA pad on deck
- Soft handle for convenient board carrying
- Heavy duty leash attachment on nose and tail
- Tall high pressure pump designed for ease of use
- Comfortable heavy duty backpack with pockets for extra storage options
- Easy to use repair set
- On deck rope storage system

IQ FREE 10'7" x 5"

IQ FREE 10'9" x 6"

IQ FREE 11'1" x 6"

IQ TOURING

The IQ TOURING range are incredibly light cruising boards. Significantly longer than the rest of the range with a narrower width, it will have you gliding through the water and clocking up the kilometres without even realising it.

New for 2016 we have introduced 2 extra sizes to accompany the 12'6". There is now a new 11'6" and a 14'0" making sure that we can provide an even larger range to suit every rider of every size.

IQ TOURING

11'6", 12'6", 14'0"

The smallest and lightest model in the IQ Touring range, the new 11'6" will get the lighter riders out there cruising in no time. It was important to provide a 260 litre lighter weight option whilst still maintaining the 30" width for stability. Coming in at under 10kg the lightweight 11'6" is great for both travelling around and on the water.

The IQ TOURING 12'6" is designed for long distances.. The 30" width is crucial for cutting through chop and maintaining speed. The introduction of just a larger single fin provides better drive and directional stability. The IQ TOURING is also one of the lightest weight boards you will find on the market.

The IQ TOURING 14'0" is the largest in the range. With the increased size gives extra stability for all heavier riders and beginners. With the lightweight construction and ease of use, the IQ Touring is a great go to board.

Includes fins, pump, repair set and bag

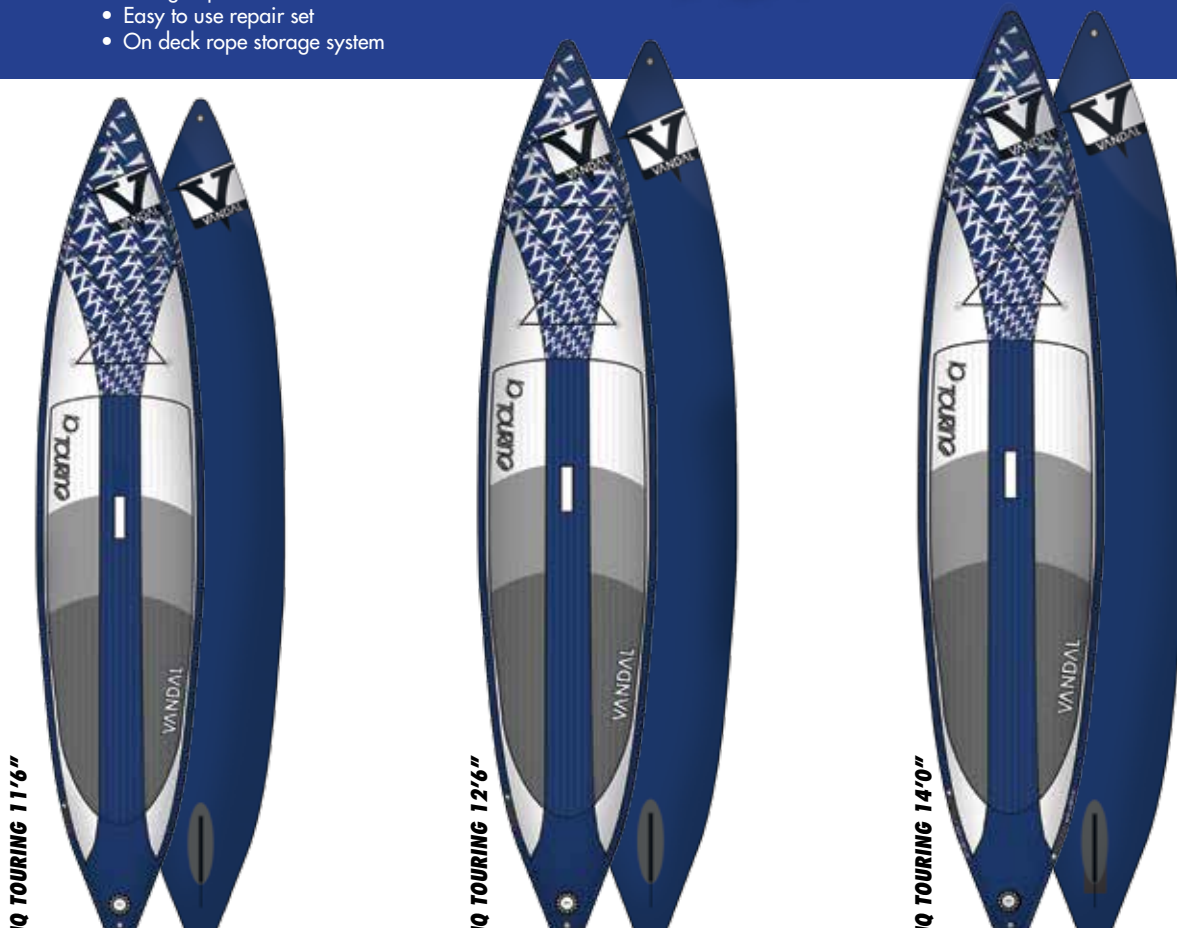

FEATURES

- Single fin set up for speed
- Secure 'lock in' inflation valve
- Slide in and lock fin technology
- Double layered rails to maximise stiffness
- EVA pad on deck
- Soft handle for convenient board carrying
- Heavy duty leash attachment on nose and tail
- Tall high pressure pump designed for ease of use
- Comfortable heavy duty backpack with pockets for extra storage options
- Easy to use repair set
- On deck rope storage system

IQ CONSTRUCTION

- 2 Supported Fabric 1000D
- 3 2nd Layer Sheet
- 4 1st Layer Sheet
- 5 Base Fabric 410D
- 6 Siderail 1000D
- 7 Space Yarn 410D

***A HIGH PERFORMANCE INFLATABLE
RACE BOARD MADE WITH
LIGHTWEIGHT DOUBLE LAYERED
MATERIALS***

IQ RACE

IQ RACE

12'6", 14'0"

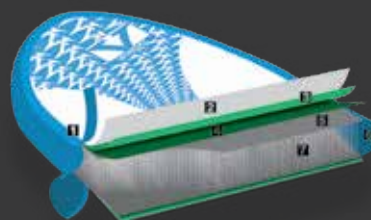

New to the IQ range for 2016 is the IQ Race edition. We wanted a high performance inflatable Race board made with lightweight double layered materials to complete the IQ range.

There are 2 sizes for the IQ Race boards, both coming with 26" width and a 6" thickness. With the narrower width the boards will cut through the chop with fast acceleration and board speed. For the different sizes we have increased the lengths with a 12'6" and 14'0" lengths to suit different size and ability riders who want maximum speeds from their iSUP.

Includes fins, pump, repair set and bag

FEATURES

- US box fin for multiple fin options
- Secure 'lock in' inflation valve
- Slide in and lock fin technology
- Double layered rails to maximise stiffness
- EVA pad on deck
- Soft handle for convenient board carrying
- Heavy duty leash attachment on nose and tail
- Tall high pressure pump designed for ease of use

FLOW BOARDS

The FLOW range is our multipurpose all round range of boards that come in both standard and Windsurf options. The FLOW range is more suited to a tighter budget than the high performance 'IQ' range, perfect for all new SUPers who are ready to dip their toe into the world of stand up paddleboarding.

FLOW

10'0", 11'0", 12'6" TOURING

Properly the most versatile boards in the VANDAL Flow Inflatable SUP range. The Flow opens up a huge range of usage. Designed for directional gliding, touring and longboard wave riding. The Flow has a long, narrow outline and optimized thickness for directional stability and paddling comfort.

12'6" TOURING

Properly the most versatile boards in the VANDAL Flow Inflatable SUP range. The Flow opens up a huge range of usage. Designed for directional gliding, touring and longboard wave riding. The Flow has a long, narrow outline and optimized thickness for directional stability and paddling comfort.

Includes fins, pump, repair set and bag

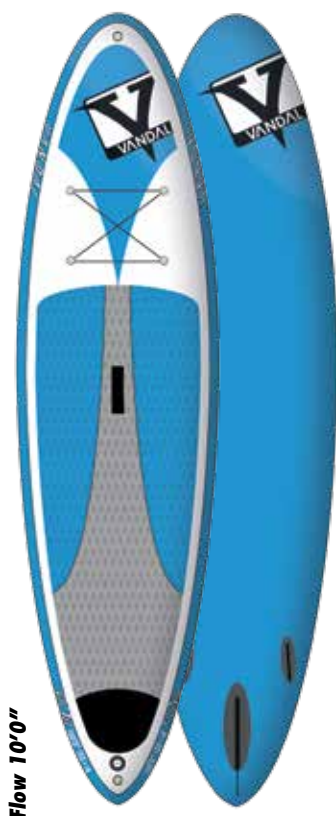

FEATURES

- Thruster Fin Setup (10'0", 11'0")
- Single Fin Setup (12'6" TOURING)
- High Quality inflate valve
- US BOX Fin System
- Super strong reinforced PVC material
- Double Layer rails for perfect stiffness
- EVA pad on deck
- Soft handle for comfortable board carrying
- 4 D-rings on the nose for gear storage
- Heavy Duty Leash attachment points on nose and tail
- Extra tall high aspect pressure single action pump
- Comfortable heavy duty back pack with extra gear storage options

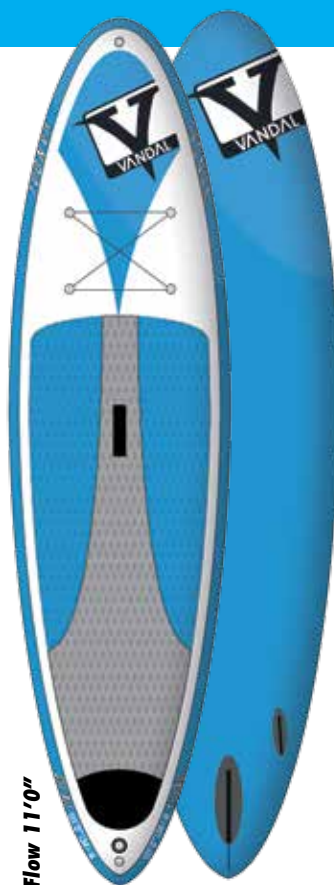

FLOW CONSTRUCTION

FLOW WS

You can now transform your inflatable SUP into a perfect windsurfing beginners board with the FLOW windSUP option! The windSUP's come with two fin option for the user to transform their board from a regular iSUP by adding an additional centre fin for windsurfing. The new FLOW's also include a US Fin Box system, this popular system gives many options for fin sizing and is much stronger than regular fin boxes.

FLOW WS

10'0", 11'0", 12'6"

You can now transform your inflatable SUP into a perfect windsurfing beginners board with the FLOW windSUP option! The windSUP's come with two fin option for the user to transform their board from a regular iSUP by adding an additional centre fin for windsurfing. The new FLOW's also include a US Fin Box system, this popular system gives many options for fin sizing and is much stronger than regular fin boxes.

This highly durable and versatile collection of iSUP and windSUP's are ideal for beginner SUPers and Windsurfers.

The FLOW 12'6" board is a larger option Touring board that comes with 330 litres. A great board for flat water races and speeding over long distances. It comes with the same length and width as the IQ Touring but we've added an extra 2" depth for the FLOW touring edition. This provides better stability and balance throughout the board.

This furiously fast inflatable will have you flying across the water with maximum control and ease.

Includes fins, pump, repair set and bag

FEATURES

- 2x fin option for rear and centre fin windsurf option
- Secure 'lock in' inflation valve
- Slide in and lock fin technology
- Double layered rails to maximise stiffness
