SURFBOARDS
2016

- 1 secure cell E.P.S. core
- 2 fibreglass/ballistic skin sandwich
- 3 vacuum epoxy foam
- 4 polished satin

NSP E2 SURF

The evolution continues from the technology that started it all. Our E2 range offers the ultimate in durability – and diversity! From new school cool to old school rules, we have it covered under the E2 series with a wide range of shapes and graphic designs to take your performance to the next level and beyond. A vacuum molded Epoxy Foam and Fiberglass sandwich wrapped in a ballistic skin ensures that this board can stand up to almost anything. Look to the busiest hire centres around the world, everywhere! If they can handle this abuse year on year imagine how long it will last in normal situations. This year we step it up a notch and with our polished satin finish and evolution never looked so good – are you ready to come along for the ride?

- Securecell EPS Core
- Fibreglass Epoxy Foam Sandwich
- Ballistic Skin
- Polished Satin

Elements

- 1 secure cell E.P.S. core
- 2 fibre sandwich
- 3 vacuum epoxy
- 4 matt & polished satin

NSP ELEMENTS

When you want a no-nonsense board that won't break the bank and that is stronger than a similar traditionally constructed (PU) surfboard, look no further than the NSP Elements range. EPS SecureCell at the core with a durable yet supremely lightweight vacuum molded Epoxy Fibre sandwich shell, the Elements range is exactly what the surfing enthusiast needs to make the most out of every session.

Finished in our unique matt finish with polished rails and in a range of striking solid colours, ignite your surfing passion with a board from the Elements range from NSP.

- Securecell EPS Core
- Fibre Sandwich
- Vacuum Epoxy
- Matt & Polished Satin

- 1 secure cell E.P.S. core
- 2 coco - fibre sandwich
- 3 vacuum epoxy
- 4 clear fluid matt

COCOMAT

When nature and science collide, the result is dramatic and the same goes for the Cocomat series by NSP. The natural Coco-Fibre Sandwich shell wraps the SecureCell EPS core. It is then vacuum molded with clear epoxy resin and finished with a clear, fluid matt performance skin. Cocomat is both extremely light weight and has an organic strength rarely found in manmade fibres.

This is a technology that has been developed and patented by NSP. Every Cocomat board is unique, with a natural look and will perform like no other.

- Securecell EPS Core
- Coco-Fibre Sandwich
- Vacuum Epoxy
- Clear Fluid Matt

NSP first tier full epoxy construction in durable and affordable vacuum molded HDT (High Definition Technology)

More refinement in plan-shape, foil, rail and bottom contours to enhance performance and visual appeal

Range extended to include Hybrid short-board design

Available in an additional LTD graphic style in our most popular models

Polished rails, slick matt finish hull

NSP twin tab fin plugs, 3 fins included: M7 or M3 + 8" centre fin

HYBRID

With the tail of a short board and the nose of a fish, the Hybrid design is as close to a single board quiver as you will find. The Hybrid will suit the intermediate to advanced surfer.

Length	Width	Thick.	Vol.	Fin	Leash	Pad	Also available in		REF.
6'0"	20 1/2"	2 1/2"	35L	M7	-	-	✓	✓	ABH0600020
