ION WATER 2018

More than a decade ago, a bunch of watermen gathered to build a new brand from scratch: their urge to challenge themselves out on and in the water while not compromising on the equipment led them to form ION.

Focusing on wetsuits and neoprene products for the international kiting and windsurfing scene from the very beginning, the ION spectrum grew rapidly: The unique combination of high-quality products wrapped in a progressive style and design also found it's way into surfing, wakeboarding and SUP.

In late 2012, ION launched a separate bike division with functional cycling gear and protective equipment.

Today, ION is a brand run by passionate sports people from all kinds of different sports. Our work has always been dedicated to the development of products that allow you to experience nature and feel its forces.

Since the early days of ION, our driving force has come from the enthusiasm and satisfaction derived from mastering challenges: We simply love to shred. No matter what kind of board or bike we ride. We are all on the same page: We all share the passion for a feeling called stoke and flow...

And it doesn't matter who you are!

It doesn't matter whether you're a rookie or a pro, whether you're a weekend warrior or a seasoned veteran!

It doesn't matter what action sports you love the most and where you ride!

We are: **UNITED BY STOKE!**

MAKI_TAPE 2.0

Improved version of highly elastic neoprene tape securing every inch of lower body seams and highly stressed cuff area.

NINJA_KNEE

The new Ninja_Knees feature uses the same highly elastic material used in the arm panels. The result is awesome freedom of movement while bending your knees.

NINJA_SPINE

A small strip is inserted between the back and the buttock panel giving your upper body freedom to rotate and more stretch for paddling.

WATER_GATE_3D

Updated with additional seam to allow a more body-specific fit around the neck, it provides superb water resistant sealing.

OPTIMUM FLEX

Reduced panel layout, Ninja_Knee and Ninja_Spine construction.

WARM

Hot_Stuff lining, Seal_Tight and Water_Gate_3D construction.

MAKI_TAPE 2.0

Improved neo tape seal for superb flex, water resistance and seam reinforcement.

PROTECTION

Crash_Padz at shins and ribs.

GBS + POWERSEAM

POWER_SEAM

Ultra slim outside sealing technology for a long lasting life span providing more elasticity, freedom of movement and comfort.

PLASMA_PLUSH

Enlarged area of Plasma_Plush in order to maximise heat retention, thanks to the looped fabric structure, which traps air for best insulation. Great stretch and quick drying.

SWEEP_CUT

Seam-free shoulder design for increased paddle reach and shoulder rotation.

REPLACEABLE DRAW CORD NEW

The cord is used to tighten the suit at the shoulder. The high load on this small detail can lead to unavoidable damage. Now it can be easily replaced.

MAKI_TAPE 2.0

Improved version of highly elastic neoprene tape securing every inch of lower body seams and highly stressed cuff area.

NINJA_KNEE

The new Ninja_Knees feature uses the same highly elastic material used in the arm panels. The result is awesome freedom of movement while bending your knees.

HOT_STUFF

This improved Hot_Stuff has a wooly appearance and feels great against bare skin. The wooly knit structure has a very good stretch.

NEO TOPS

LINE CONCEPT

The ION NEO TOPS are a must-have for every watersports nut hitting the sea or surf in milder climates. Although mainly used in warmer waters to keep the sun and wind off the skin, they can also be used as a second layer underneath your wetsuit. Thanks to the plush, wool-like Hot_Stuff lining, these tops have a luxurious texture that feels great, even on bare skin! The NEO TOPS have a more detailed and technical construction than that of the standard Rashguard, providing 100% UV protection, efficient heat retention and a reduction in irritations and bruising often caused by the harness or surfboard.

THERMO TOPS

LINE CONCEPT

ION THERMO TOPS bridge the gap brilliantly between the Neo Tops and Rashguards. Made entirely out of Bi_Poly jersey, the THERMO TOPS are quick to dry, velvety soft, warm and fantastically robust on the external surface. With multi-purpose functions, they can be used as a thicker substitute for a Rashguard on cooler days to protect you from the dreaded windchill, skin chafing and harmful UV rays. In colder waters, THERMO TOPS can be worn under your wetsuit for additional warmth.

RASHGUARDS

LINE CONCEPT

All ION RASHGUARDS are made of highly elastic SpanFlex_UV jersey. The hand feel of this supreme material makes the difference! They can be used to protect you from the windchill effect, UV radiation and abration but also work as a thin extra layer underneath the wetsuit.

WETSHIRTS

LINE CONCEPT

ION WETSHIRTS are where fashion meets function. Made from a quick-dry and stylish fabric, they protect against UV radiation and shield sensitive skin from the harsh elements. The WETSHIRT can be worn as a trendy tee with shorts at the beach, or with boardies on the water. Either way, we guarantee you'll look the part.

NEO ACCESSORIES

LINE CONCEPT

In the ION point of view the smallest items in the product range deserve the same dedication and precision as every complex item. Therefore the NEO ACCESSORIES are a small but essential part of the whole equipment and sometimes these small items decide whether you have a great day on the water or you go home in deep frustration. Extend your session with our selection of NEO ACCESSORIES – protecting you and keeping you warm.

BALLISTIC | MAGMA | PLASMA

FOOTWEAR

GENERAL

ION understands that there is nothing better than riding barefoot, and our aim is to preserve that feeling even when wearing boots. Every piece of feedback delivered from the board, to the receptors in your toes is imperative. Our intention is to give you an extensive and all encompassing range of Neoprene Footwear to further facilitate your ride, even in Baltic conditions.

BALLISTIC

LINE CONCEPT

The BALLISTIC range is our premium line and the crème de la crème of water footwear. If you're looking for exceptional warmth and maximum protection then this is the line for you. With support and stretch in all the right places, it's further enhanced with well thought out and cleverly designed features. All of the BALLISTIC line have the following standard features to provide supercharged feedback even through layers of Neoprene, plus a little bit more ...

BALLISTIC SOLE: THE FAMOUS AND UNIQUE ARAMID SOLE PROTECTS AGAINST RAZOR SHARP REEF, MUSSELS AND OTHER ABRASIVE OBJECTS.

KNIT_TEX: A NEW ABRASIVE RESISTANT FABRIC ON THE FOOT SPAN FOR TIGHT FIT AND LONG LIFESPAN.

WRAP_UP SOLE: THE USUAL FLAT SOLE EVOLVES AND WRAPS AROUND THE FOOT FOR A SNUG FIT.

LAST CONSTRUCTION:

IS:
INTERNAL SPLIT TOE – PROVEN SINCE YEARS TO ELIMINATE SPONGY FEELING WITHIN THE TOE AREA.

RT:
FOR THOSE WHO DON'T LIKE THAT STRING BETWEEN YOUR TOES WE OFFER A **ROUND TOE NO-SPLIT** VERSION

ES:
EXTERNAL SPLIT SINCE THE BEGINNING USED AT THE BALLISTIC TOES

MAGMA

LINE CONCEPT

The perfect blend of that desirable ,barefoot* sensation and unrivalled warmth, an external split-toe and ultra-thin rubber layup is incorporated into its forward-thinking design. All of the magma styles have the following standard features:

ANKLE STRAP: STAY SECURE AND SUPPORTED.

SEGMENTED SOLE: CREATIVE AND STRATEGIC CUTTINGS HAVE BEEN INTEGRATED INTO THE SOLE TO ENHANCE THE FLEXIBILITY IN CRITICAL AREAS OF THE FOOT.

LAST CONSTRUCTION:

ES: EXTERNAL SPLIT SINCE THE BEGINNING USED AT THE BALLISTIC TOES

VESTS KITE | VESTS WAKE | HARDCAPS

VESTS

LINE CONCEPT

ION VESTS are designed to cater to all levels of riding. Whether you're looking for added buoyancy, or peace of mind when on the water, our range of multi-functional VESTS will boost your confidence so you can take your riding to the next level. Forever pushing innovation and design, we take pride in the optimised construction and intricate details that ION believes make all the difference. Since 2011, we've made sure that all ION VESTS meet CE standards and pass the rigorous testing process according to PPD89/686/EEC. The ION VESTS will enhance your ride, give additional warmth and build your confidence. Ride hard, ride safe.

FZ = front zip
SZ = side zip
NZ = no zip

MEN WAKE

COLLISION VEST SELECT FZ

HARDCAPS

LINE CONCEPT

It won't come as a surprise to know that ION is evolving their line of Hardcaps with the same passion and innovation as they do all other products. This approach provides the basis and strong foundations for the ION Head Shell range, manufactured in a factory well known for the production of aviation helmets. ION is setting new standards for watersports: Hardcaps with a weight-optimised, yet robust construction and cosy materials on the inside. All ION Hardcaps meet the CE 1385 standard. ION provides the best protection in three different constructions.

HARDCAP 3.1 SELECT

ITEM NO. 48800-7202

PRODUCT UPDATE

SIZES: XL-XXL, M-L, XS-S, S, L, XXL
COLOURS: ■ trans black ■ trans white

FEATURES

. Adjustable inside construction / EVA padding, Memory foam lining on earpad, FIDLOCK - magnetic buckle, Water repellent lining, CE EN 1385 certified, Lightweight

KITE WAIST HARNESS | KITE SEAT HARNESS | X-OVER HARNESS
WINDSURF WAIST HARNESS | WINDSURF SEAT HARNESS

HARNESSTEchnology

BELTS

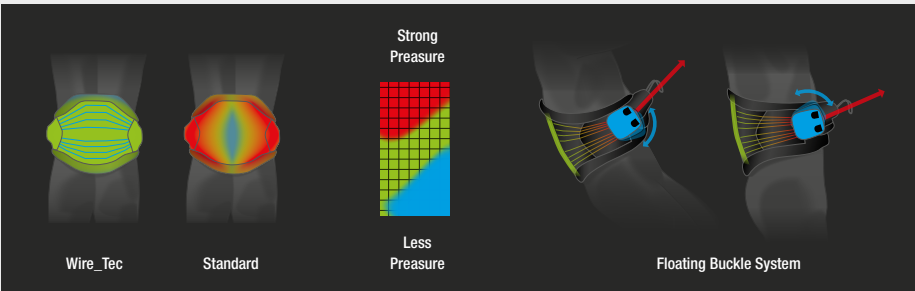

ARCH_BAR NEW!

Soft 3D preshaped EVA foam which keeps the harness in place.

WIRE_TEC

A patent line setup, designed to spread the load evenly and banish irritating pressure points.

NEO_BELT

A new and improved technical feature, designed to increase the feeling of flex, twist and overall comfort of wave and freestyle riding.

SLINGBELT

The Slingbelt provides a comfortable embrace around the waist, keeps the harness in place, and eliminates friction or irritating pressure points.

INTERNAL FLEX_BELT

The internal belt structure offers freedom of movement and keeps your harness in place when riding unhooked.

KEY FETAURES

LOW_RIDER

A windsurf specific outline, designed to stabilise and distribute the load evenly across the back area.

REDUCED_UPPER BACK

A women specific outline, designed to stabilise and distribute the load evenly across the back without reduce freedom of movement.

REDUCED_SIDE CUT

A women specific sidecut, designed to create more freedom of movement.

SILC_EDGE

A new elastic edge around the Harness which works like a seam between body and Harness and prevents friction.

X-SPINE

X-style shaped and thermo moulded EVA insert that protects the back without stiffening the harness.

SHAPE

SOFT_EDGE

Soft_Edge that bends sideways at the hips and ribs for a more forgiving feel, enhanced by a special foam padding.

DUAL DENSITY FOAM

Two unique supportive and snug foams for sensitive back areas

3D CONTOUR SHAPE

A technique specifically designed to provide a perfect fit and support to the upper and lower part of the back through differently shaped segments of the harness.

RECOMMENDED SPREADERBAR

The exact length of the spreader bar is crucial for a comfortable fit. The bar spreads the force across the hip area into the back part of the harness where the main pressure will be distributed. Too small a spreader bar will collapse the harness and hurts your hips while riding.

3D ZONE SHAPE

Partially 3D shaped both horizontally and vertically, provides the perfect body fit and stops the harness from riding up.

3D COMPOSITE SHAPE

A specifically designed Carbon/PE construction to provide a perfect fit with extreme support across the back through differently shaped layers which wrap around the harness.

TRAVELBAGS | BOARDBAGS

BOARDBAGS 2018

UP TO 35% LIGHTER

BOARDBAGS

BOARDBAG TECHNOLOGY

DURA_TEC NEW!

A thermo molded PE plate ensures great stiffness combined with lightweight and durability. The plate is protecting the area that is getting the most friction while traveling.

SHERPA_BELT NEW!

The sherpa_belt makes travelling even easier: simply put the belt around your shoulders and have your hands free for all the other stuff you need to take care of while traveling.

LIGHTWEIGHT NEW!

Thanks to the use of new Materials and Features ION bags are up to 35% lighter in 2018 (compared to 2017).

BAG_BREEZE 2.0

The Bag_Breeze 2.0 does exactly what it says on the tin! The two new TPU patches on the front and back of the bag, are combined with the mesh inserts at the front and tail to ensure great ventilation. The mesh inserts are completely EVA padded, perfect to protect your precious board. Say goodbye to a hot damp interior and hello to a breezy bag for your wet kit and board!

CONNECTIVE_HANDLE

Gone are the days of hauling your boardbag in an awkward fashion across airport floors. ION has developed the Connective_Handle as a simple solution for those tricky times. Using this accessory, you can connect the front handle of the Tec Boardbag to your trolley bag or airport trolley and calmly cruise to the check in counter.

PROFILE_TEC

based on a 8 mm basic foam layer a half circle foam profil with a thickness of 10 mm takes place; working as a kind of damping system for your board; at the same time the air ventilation works better with this construction and let your board faster get dry

RAIL_GUARD

Put your mind at ease with the new Rail_Guard feature. Covering the full rail of the board, the thick piping protects the rails from clumsy baggage handlers, over zealous taxi drivers and all other kinds of impact.

E Y E
W E A R

RAY | HYPE | ICON

TECHNOLOGY

FRAME

ADJUSTABLE TEMPLE TIP NEW

The RAY and HYPE models just received the new ADJUSTABLE TEMPLE TIP. Bend horizontally or vertically in order to achieve a perfect and individual fit to suit any shape of head.

ADJUSTABLE NOSE PADS NEW

The RAY and HYPE models are equipped with the new ADJUSTABLE NOSE PADS. Move them in any direction to ensure that your sunglasses sit safely on your nose.

BASE CURVE

The Base Curve 8 is the most functional and first-rate sports frame. The wrap around contour provides maximum protection of the eyes. And the Base Curve 8 lens provides low light waves invasion as well as decentered lenses that eliminate distortion.

LENS

UV PROTECTION

Absorbing as much as 400 µm of solar radiation.

LENS APPROVED QUALITY

Meeting the highest and most technical standards of CE, ANSI and AS.

HYDROPHOBIC LENSES

A surface coating that allows water to run off without leaving any streaks or smudges behind.

PROTECTION INDEX

Category 3 (strong sunlight) allows a luminous transmittance of 8 % – 18 %, optimum for the beach and sea. Let only the ‘right’ light in.

CONDITION	CATEGORY	TRANSMISSION
	0	80–100 %
	1	43–80 %
	2	18–43 %
	3	8–18 %
	4	3–8 %

LENS REPLACEMENT INSTRUCTION

1. Pull the temple arm out of the frame

2. Open the frame

3. Remove the lens

4. Put in the new lens

5. Close the frame

6. Click the temple arm into the frame

ION x ZEISS

The ZEISSxION collaboration has brought forth a new level of excellence in water-sports eyewear. The ION Inter_Pol lens has been developed by ZEISS and provides flawless wind detection.

ZEISS lenses are made in Italy by legendary experts at Carl Zeiss Vision Sunlens, the same company that pioneered high performance optics back in 1846. Every ZEISS lens is formed in an individual diamond polished mould for flawless clarity. To guarantee the best performance and highest quality, each lens is subjected to a rigorous 24 step testing procedure.

INTER_POL

The ION Inter_Pol lens had been developed by Zeiss, specifically for wind watersports. Spot the wind on the water surface with ease, thanks to the special lens colour that blends perfectly with the multilayered coating.

RI-PEL TREATMENT

- . Highly functional and super hydrophobic coating on the front and back sides of the ION_ZEISS lenses
- . Superior hydrophobic technology
- . Durable and long lasting
- . Dirt, oil, dust and water repellant
- . Scratch resistant and easy to clean
- . Great in all weather conditions

8 BASE SPHERICAL DECENTERED LENS

A wrapped lens that is excellent in strong curved frames. As it closely follows the contour of the face, it protects the eye from external interferences (wind, water, salt etc.) The lens massively reduces the distortion effect, so crystal clear vision is provided in peripheral areas.

OPTICAL PROPERTIES

The ZEISS sun lenses used in our frames, have been tested in order to achieve both advanced protection from the sun's rays and optical perfection. Through the strict and exclusive ZEISS qualification process, our laboratory analyses each model to ensure optical excellence, which is demonstrated by the engraved Z on each lens.

IMPACT RESISTANCE

Thanks to the use of top quality, shock resistant injection moulded polycarbonate, we are able to achieve outstanding resistance against impact.

UV FILTER

Despite its featherlight weight, the lens ensures a 100 % UV shield to prevent eye damage caused by the sun's rays.

LIGHTNESS

Optimum lightness guaranteed thanks to the thinness of the lens and material.

ADHESION

The hard coating provides superb efficiency, and greatly contributes towards the quality of the mirror adhesion and overall durability.

HD SCRATCH RESISTANCE

ZEISS Sunlens developed one of the toughest hard coating resins in the industry. Field trials and extensive laboratory texts – the Eraser test – proved its efficiency and durability.
