

## COMPATIBILITY OF FLYING LINES

Dear North Kiteboarding Agents & Distributors,

To help you and your shops find the right spare lines for customers' bars, even if they might already be a little older, we created a list to give you an overview of the compatibility of flying lines (find attached).

Being divided into years of release of the spare lines, the list shows which lines fit which bar and also gives info about the according article number.

The list will be updated regularly, with the latest update always being available for download in our media login. Once a year (with start of the new season) the updated list will be send to you.

Here's a short overview to explain how it works. In this example we find out to which bars the 22 m backlines fit:

- > The 5th and QC Trust Bar of 2013 and 2014
- > The 5th and QC Trust Bar as well as the Wakestyle Bar of 2015 and 2016.

Additionally the article number of the lines of the respective year is shown in the chart.

There's no 22m backlines for bars of the years 2008 - 2012.

		2008	2009	2010	2011	2012	2013	2014	2015	2016
