UNITED BY STROKE

ION WATER 2018

More than a decade ago, a bunch of watermen gathered to build a new brand from scratch: their urge to challenge themselves out on and in the water while not compromising on the equipment led them to form ION.

Focusing on wetsuits and neoprene products for the international kiting and windsurfing scene from the very beginning, the ION spectrum grew rapidly: The unique combination of high-quality products wrapped in a progressive style and design also found its way into surfing, wakeboarding and SUP.

In late 2012, ION launched a separate bike division with functional cycling gear and protective equipment.

Today, ION is a brand run by passionate sports people from all kinds of different sports. Our work has always been dedicated to the development of products that allow you to experience nature and feel its forces.

Since the early days of ION, our driving force has come from the enthusiasm and satisfaction derived from mastering challenges: We simply love to shred. No matter what kind of board or bike we ride. We are all on the same page: We all share the passion for a feeling called stoke and flow...

And it doesn't matter who you are!

It doesn't matter whether you're a rookie or a pro, whether you're a weekend warrior or a seasoned veteran!

It doesn't matter what action sports you love the most and where you ride!

We are: **UNITED BY STROKE!**

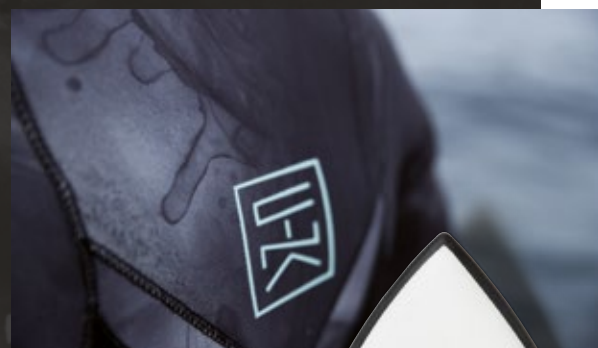

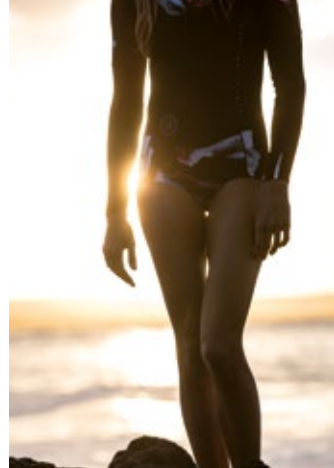

ION CAPSULE LINE FEAT. MICHAEL CINA

2019 ION comes up with a new artist collection – the Capsule Line unites a selected number of products of the wetsuits range, the muse range, the tops range and the ponchos range with one extraordinary design done by the artist Michael Cina.

Although Michael isn't a surfer, a kiter or a biker and in his spare time he is not the one searching for waves or trails, for ION he is the perfect partner for the Capsule Line, because we have the same angle of view on the fields of arts and sports and we share the same source of inspiration: "NATURE is glamorous to the point of confusion, let the artist be truly taciturn." Michael Cina feels constantly inspired by the textures, colors, motion, light, shapes, accidents, reflections ... basically anything nature offers us to see, to feel, to explore.

“Inspiration is everywhere. I find inspiration from everything I do.” Therefore he does a ton of experimentations with materials and makes his own paints. Which means he doesn't use traditional materials – like brushes – to paint with. He lives and breathes design, typography and art and his overall motto is “Exploring Other Spaces”.

We at ION share this dedication to work. Our approach is to always explore new spaces in terms of creation, materials and design to offer the best possible products that allow you to experience nature, face the elements and feel its forces. We follow our inspiration, we never stop researching and developing.

This is what the Capsule Line stands for.

STRIKE VS. ONYX

REGULAR VS. TIGHT

Compared to previous seasons, in 2019 ION uses the same neoprene foams and linings on the relative levels: Select, Amp, Core and Element for STRIKE and for ONYX suits. Thus, there is no difference in terms of stretch between the two wetsuit lines. Therefore for the most important information, to come to the buying decision STRIKE vs. ONYX is the fit.

STRIKE

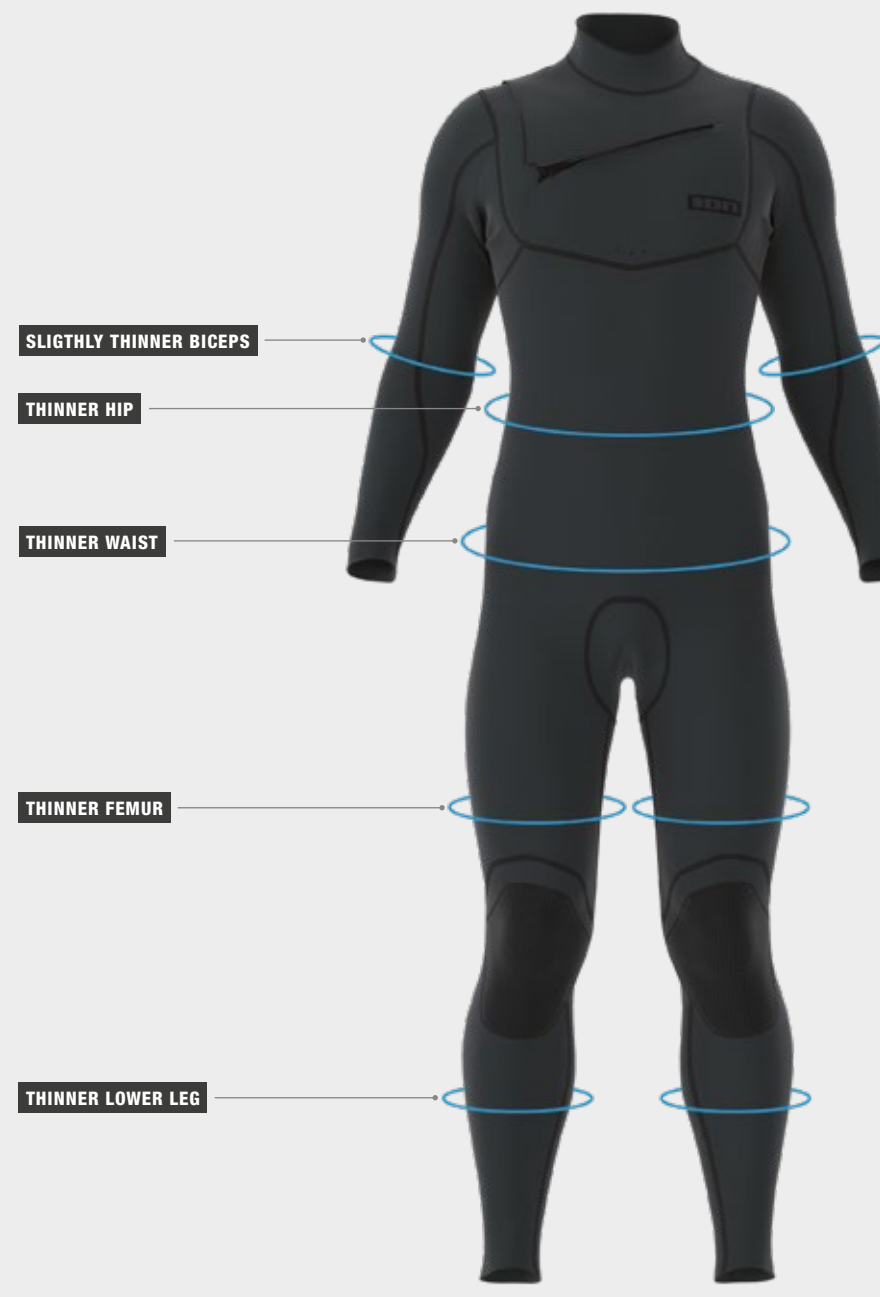

If you are a rather brawny person, we at ION recommend the STRIKE. Because the STRIKE suits have a slightly wider biceps cut as well as a wider hip, waist, femur and a bigger lower leg circumference which feels up to half a size bigger than the ONYX suits.

Furthermore, the detachable Velcro Leg_Loops which prevent water from rushing into the suit, the Crash_Padz at shins and ribs and the Glide_Skin panel at the back for wind chill protection only come with the STRIKE wetsuits. This makes the STRIKE more wind water sports oriented than the ONYX.

ONYX

If you are a wind water sports hero you can also ride the ONYX. In the end, it is all about the taste: Without the Crash_Padz and the Glide_Skin panel and due to the tighter fit, the ONYX feels lighter, thinner and like a second skin.

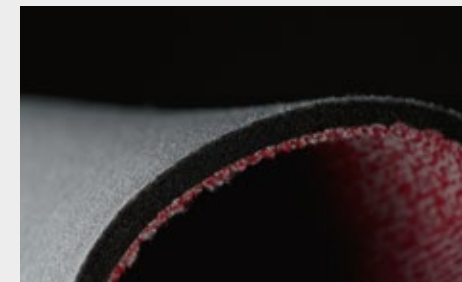

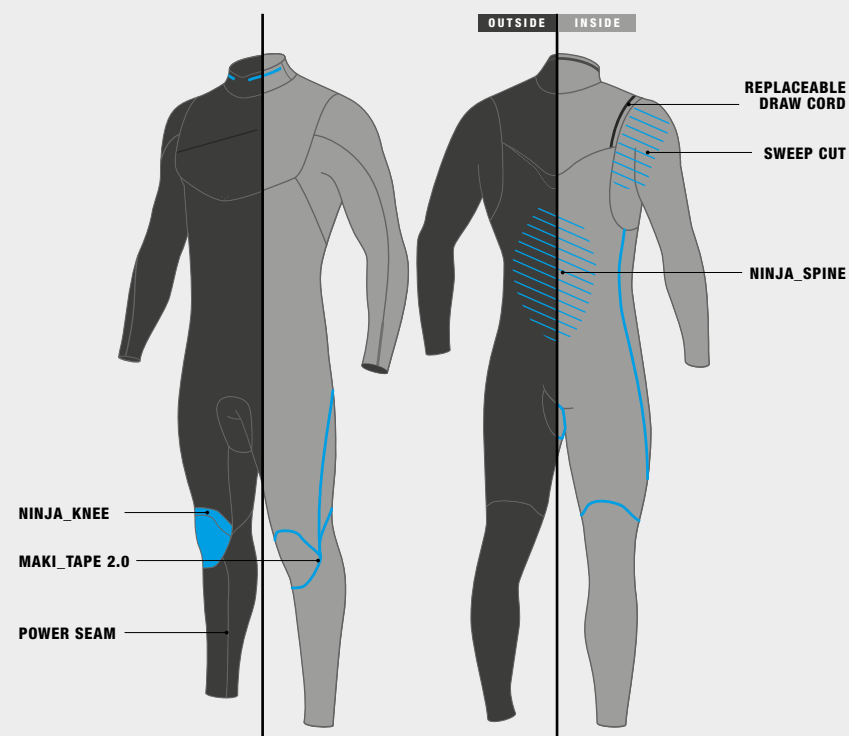

WETSUITS TECHNOLOGY

LEVELS

	SELECT	AMP	CORE	ELEMENT
OUTSIDE	 <ul style="list-style-type: none"> • Outside fully made out of Cyber-Stretch 130% the most flexible lining available. • Skin panel at back. 			
FOAM	 <p>Our new I-Foam is replacing our current V- and N-Foam, enhancing the freedom of movement and stretch.</p>		 <p>Our standard foam, the S Type, is made from limestone instead of oil. It offers good stretch and warmth.</p>	
INSIDE	 <ul style="list-style-type: none"> • Large area of plasma plush for maximum heat retention. 	 <ul style="list-style-type: none"> • Quick drying Plasma Plush on back panel against windchill. • Hot_Stuff 2.0 for the perfect combination of warmth and stretch. 	 <ul style="list-style-type: none"> • The enlarged area of Hot Stuff 2.0 providing a huge amount of stretch and keeping you warm at the same time. 	
FEATURES				
POWER SEAMS	<ul style="list-style-type: none"> • Ultra slim sealing technology on the outside for a longer lasting lifespan. This fine seam sealing provides increased elasticity, freedom of movement and comfort in one smart package. 			
MAKI_TAPE 2.0	<ul style="list-style-type: none"> • Around crotch, knees and shin. • 5 cm from cuff inwards to prevent fabric from becoming loose. • Taping only were needed to keep the great flexibility. 	<ul style="list-style-type: none"> • Entire lower body. • 5 cm from cuff inwards to prevent fabric from becoming loose. • Taping only were needed to keep the great flexibility. 	<ul style="list-style-type: none"> • Crotch and knees. • Taping only were needed to keep the great flexibility. 	
SWEEP CUT	<p>Seam-free shoulder construction for increased freedom of movement in shoulder area.</p>		<ul style="list-style-type: none"> • Improved panel design for more stretch. 	
SEAL_TITE	<p>A thin rubber stripe at leg, cuffs and collar provide sealing and prevent fabric from getting loose.</p>			
SUPRA_TEX 2.0	<p>Enhanced version of the famous Supra_Tex offers even better abrasion resistant properties.</p>			

WETSUITS TECHNOLOGY

FEATURES

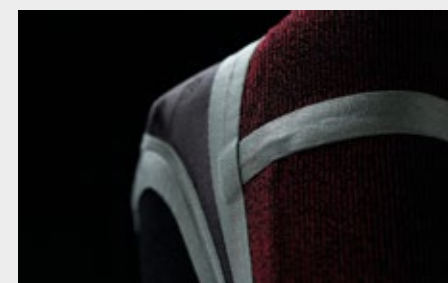

I TYPE FOAM
Our new I-Foam is replacing our current V-Foam, enhancing the freedom of movement and stretch.

HOT STUFF 2.0
The bigger looped fabric compared to the Hotstuff providing a higher amount of stretch and keeping you warm at the same time.

PLASMA PLUSH
Looped fabric structure traps air for best insulation. Great stretch and quick drying thanks to the material and woven in channel structure.

MAKI_TAPE 2.0
Improved Neo Tape seal for superb flex, water resistance and seam reinforcement.

SWEEP CUT
Seam-free shoulder construction for increased paddel reach and shoulder rotation.

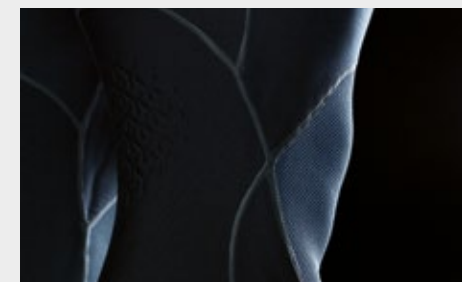

NINJA_KNEE
The Ninja_Knee uses the same highly elastic material used in the arm panels. The result is awesome freedom of movement while bending your knees.

NINJA SPINE
Same concept as for the Ninja_Knees. A small strip is inserted between the back and the buttock panel giving your upper body freedom to rotate and more stretch for paddling.

REPLACEABLE DRAW CORD
The cord is used to tighten the suit at the shoulder. The high load on this small detail can lead to unavoidable damage. Now it can be easily replaced.

POWER SEAM
Ultra slim outside sealing technology for a long lasting life span providing more elasticity, freedom of movement and comfort than regular sealings.

STORM_WHISTLE

The Storm_Whistle®! The incredible Storm_Whistle®! is twice as loud as any other mouth-blown whistle in the world and it even works in and under the water.

HERO_METER

Wanna know if you are a true hero on the water? Just check out the Hero_Meter on the left wrist! It will tell you roughly the surrounding temperature and the equivalent hero-level ...

RE_FLECTIVE

Being out on the water can be seriously dangerous especially when it is getting dark much earlier. In case of an emergency you can rely on additional reflective prints on shoulder and hood area.

P_ZIP

The ultimate answer to a full bladder in a drysuit when it's freezing outside: This TIZIP Master_Seal® zipper provides the crucial feature for a long day on the water.

SUPERIOR WARMTH

Fuse out the cold with the warmest wetsuit on the planet.

DRY

Diving Drysuit Seam Technology and 100% waterproof tested.

SAFETY

Bright, eye catching colours, Re-Flective prints and the loudest Storm_Whistle.

COMFORT

Slip in and out with ease thanks to its roomy fit.

PLASMA_PLUSH

Plasma_Plush offers great heat retention, thanks to the looped fabric structure, which traps air for best insulation. Great stretch and quick drying.

SWEEP CUT

Seam-free shoulder design for increased paddle reach and shoulder rotation.

REPLACEABLE DRAW CORD

The cord is used to tighten the suit at the shoulder. The high load on this small detail can lead to unavoidable damage. Now it can be easily replaced

PLASMA_PLUSH

Plasma_Plush offers great heat retention, thanks to the looped fabric structure, which traps air for best insulation. Great stretch and quick drying.

HOT_STUFF 2.0

Our new Hot_Stuff 2.0 comes with a plushier handfeel due to bigger loops. It is our stretchiest thermo lining in the range.

MAKI_TAPE 2.0

Improved version of highly elastic neoprene tape securing every inch of lower body seams and highly stressed cuff area.

REPLACEABLE DRAW CORD

The cord is used to tighten the suit at the shoulder. The high load on this small detail can lead to unavoidable damage. Now it can be easily replaced.

TOASTY WARM

Quick drying Plasma_Plush combined with Hot_Stuff 2.0 for the best combination of warmth and stretch

EPIC STRETCH

Limitless movement thanks to our stretchiest lining Hot_Stuff 2.0

NEO TOPS

LINE CONCEPT

The ION NEO TOPS are a must-have for every watersports nut hitting the sea or surf in milder climates. Although mainly used in warmer waters to keep the sun and wind off the skin, they can also be used as a second layer underneath your wetsuit. Thanks to the plush, wool-like Hot_Stuff lining, these tops have a luxurious texture that feels great, even on bare skin! The NEO TOPS have a more detailed and technical construction than that of the standard Rashguard, providing 100% UV protection, efficient heat retention and a reduction in irritations and bruising often caused by the harness or surfboard.

WETSHIRTS

LINE CONCEPT

ION WETSHIRTS are where fashion meets function. Made from a quick-dry and stylish fabric, they protect against UV radiation and shield sensitive skin from the harsh elements. The WETSHIRT can be worn as a trendy tee with shorts at the beach, or with boardies on the water. Either way, we guarantee you'll look the part.

NEO ACCESSORIES

LINE CONCEPT

In the ION point of view the smallest items in the product range deserve the same dedication and precision as every complex item. Therefore the NEO ACCESSORIES are a small but essential part of the whole equipment and sometimes these small items decide whether you have a great day on the water or you go home in deep frustration. Extend your session with our selection of NEO ACCESSORIES – protecting you and keeping you warm.

BALLISTIC | MAGMA | PLASMA

FOOTWEAR

BALLISTIC

The BALLISTIC range is our premium line and the crème de la crème of water footwear. If you're looking for exceptional warmth and maximum protection then this is the line for you. With support and stretch in all the right places, it's further enhanced with well thought out and cleverly designed features. All of the BALLISTIC line have the following standard features to provide supercharged feedback even through layers of Neoprene, plus a little bit more ...

Ballistic Sole: The famous and unique Aramid sol protects against razor sharp reef, mussels and other abrasive objects.

Knit_Tex: a new abrasive resistant fabric on the foot span for tight fit and long lifespan.

Wrap_Up Sole: the usual flat sole evolves and wraps around the foot for a snug fit.

Segmented Sole: Further development of the creative and strategic cuttings providing a good mixture between support and flexibility.

MAGMA

The Magma enters its second generation just comes not as flashy. The perfect blend of that desirable 'barefoot' sensation and unrivalled warmth, an external split-toe and ultra-thin rubber layup is incorporated into its forward-thinking design. All of the magma styles have the following standard features:

Ankle Strap: Stay secure and supported.

Segmented Sole: Creative and strategic cuttings have been integrated into the sole to enhance the flexibility in critical areas of the foot.

PLASMA

The PLASMA line will meet the demands of the budget orientated rider looking for quality. Offering a great fit and protection from the elements, ION wraps it all up in a spicy and unique design. All of the PLASMA models have the following standard features:

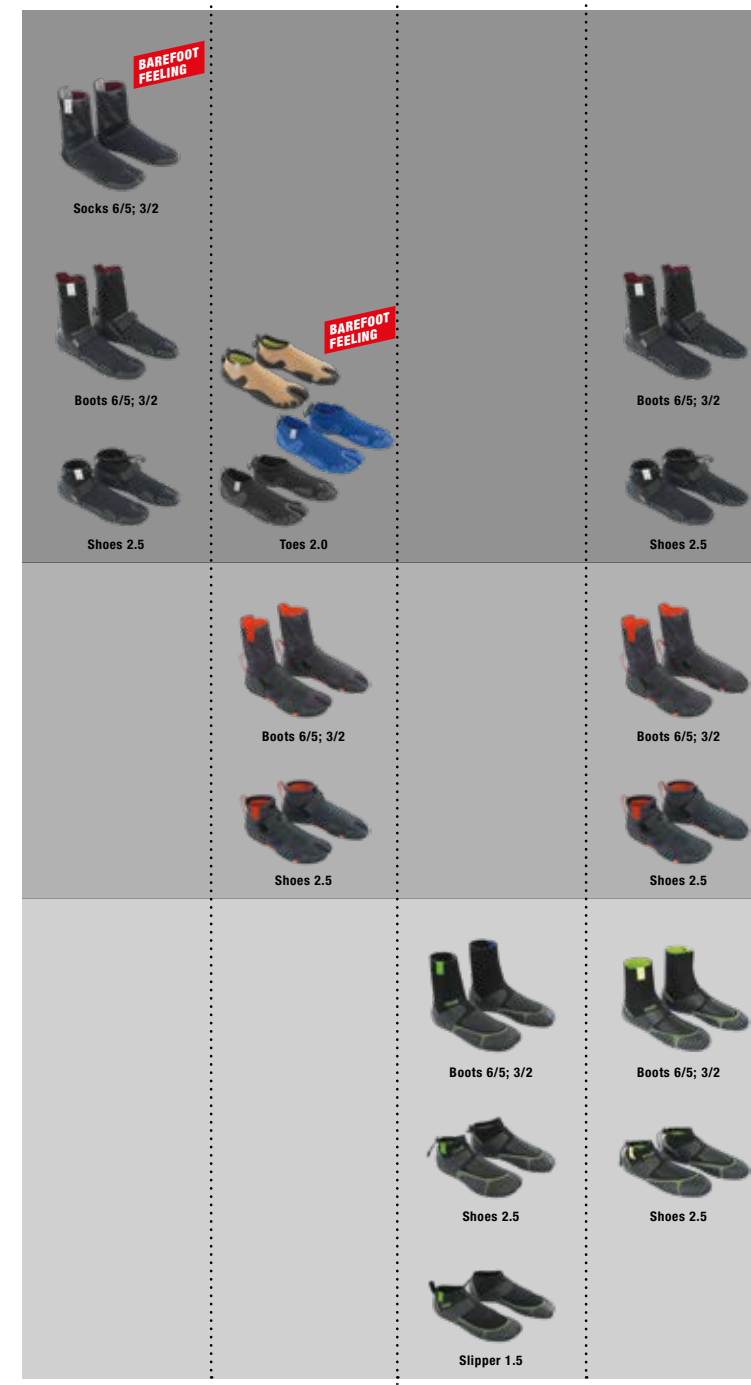

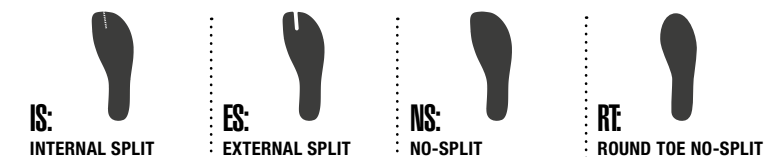

Segmented Sole: Creative and strategic cuttings have been integrated into the sole to enhance the flexibility in critical areas of the foot.

Rubber Wings: Added support to the vulnerable ankle areas

SOCK VS BOOT

THOSE THREE STYLES SHARE THE SAME LAST

COMPARISON NS/RT

For those who don't like that string between the toes we offer the NO-SPLIT and the ROUND TOE NO SPLIT. As the outline shows the RT has got a smaller root base than the other models. This ensures a tight fit on each foot and a better heat retention for your toes.

VESTS

LINE CONCEPT

ION VESTS are designed to cater to all levels of riding. Whether you're looking for added buoyancy, or peace of mind when on the water, our range of multi-functional VESTS will boost your confidence so you can take your riding to the next level. Forever pushing innovation and design, we take pride in the optimised construction and intricate details that ION believes make all the difference. Since 2011, we've made sure that all ION VESTS meet CE standards and pass the rigorous testing process according to PPD89/686/EEC. The ION VESTS will enhance your ride, give additional warmth and build your confidence. Ride hard, ride safe.

HADCAPS

LINE CONCEPT

It won't come as a surprise to know that ION is evolving their line of Hardcaps with the same passion and innovation as they do all other products. This approach provides the basis and strong foundations for the ION Head Shell range, manufactured in a factory well known for the production of aviation helmets. ION is setting new standards for watersports: Hardcaps with a weight-optimised, yet robust construction and cosy materials on the inside. All ION Hardcaps meet the CE 1385 standard. ION provides the best protection in three different constructions.

HADCAP 3.1 SELECT

ITEM NO. 48800-7202

CARRY-OVER-ITEM

SIZES: XS-S, M-L, XL-XXL

COLOURS: ■ trans white ■ trans black

FEATURES

. Adjustable inside construction / EVA padding, Memory foam lining, FIDLOCK - magnetic buckle, Water repellent lining, CE EN 1385 certified, Lightweight

HADCAP 3.1 COMFORT

ITEM NO. 48800-7201

CARRY-OVER-ITEM

SIZES: XS-S, M-L, XL-XXL

COLOURS: ■ blue danube ■ hedge green ■ wine red

FEATURES

. Adjustable inside construction / EVA padding, Water repellent lining, CE EN 1385 certified, Cosy fit, Lightweight, Removeable Ear Pads, Adjustable buckle

HADCAP 3.1

ITEM NO. 48800-7200

CARRY-OVER-ITEM

SIZES: XS-S, M-L, XL-XXL

COLOURS: ■ lime ■ black □ white

FEATURES

. Adjustable inside construction / EVA padding, Water repellent lining, CE EN 1385 certified, Cosy fit, Lightweight

EARPADS

ITEM NO. 48800-7210

CARRY-OVER-ITEM

SIZES: OneSize
COLOURS: ■ black

FEATURES

. Fits with hardcap 3.1

EARPADS WALKIE TALKIE

ITEM NO. 48800-7211

CARRY-OVER-ITEM

SIZES: OneSize
COLOURS: ■ black

FEATURES

. Option to place a compact Walkie Talkie (waterproofed version) at the Earpad (Walkie Talkie not included)

KITE WAIST HARNESS | KITE SEAT HARNESS
 WINDSURF WAIST HARNESS | WINDSURF SEAT HARNESS

HARNESS TECHNOLOGY

PLUS_SPINE TECHNOLOGY

The PLUS_Spine is ION's new harness technology. The shape of a plus reinforces the harness at the vertical center line and keeps lateral flexibility at the same time. PLUS_Spine offers the advantage to provide even more back support in the center of the harness and the perfect individual fit due to the flexibility in horizontal direction.

CARBON PLUS_SPINE

The high rigid carbon inlay ensures efficient loads distribution in the lumbar region and offers maximal support along the longitudinal axis. The variance of torsion combined with lateral flexibility results in maximum freedom of movement and individual fit.

3D PLUS_SPINE

The Curv harness range comes with a 3-dimensional version of the PLUS_Spine technology which leads to a rigid center back area. The 3D molded Curv material generates an medium axial rigidity made of one piece!

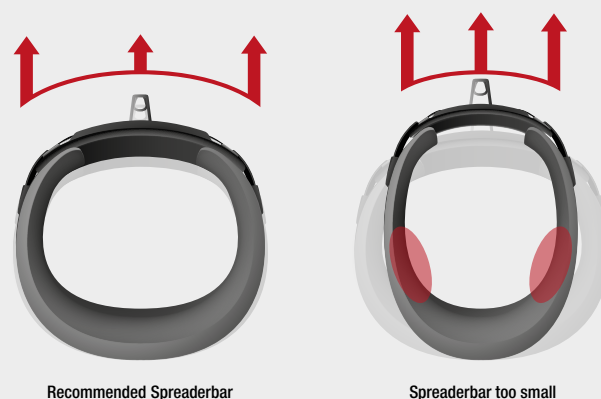

EVA PLUS_SPINE

The harnesses with EVA molded Plus_Spine have the softest center part compared to the harnesses equipped with Carbon Plus_Spine and 3D Plus_Spine.

RECOMMENDED SPREADERBAR

The exact length of the spreader bar is crucial for a comfortable fit. The bar spreads the force across the hip area into the back part of the harness where the main pressure will be distributed. Too small a spreader bar will collapse the harness and hurts your hips while riding.

Recommended Spreaderbar

Spreaderbar too small

ion carbon series FLEX HARDSHELL!

PERFECT COMBINATION OF SUPPORT & FREEDOM OF MOVEMENT

- LIGHTWEIGHT
- INDIVIDUAL ANATOMIC FITTING (HYPER FOAM CUSHION)
- LESS WATER ABSORPTION
- MONOCOQUE CARBON-BLADE TECHNOLOGY

A C C O M P A N I E D B Y L I G H T N E S S

BOARDBAGS

BOARDBAG TECHNOLOGY

DURA_TEC

A thermo molded PE plate ensures great stiffness combined with lightweight and durability. The plate is protecting the area that is getting the most friction while traveling.

SHERPA_BELT

The sherpa_belt makes travelling even easier: simply put the belt around your shoulders and have your hands free for all the other stuff you need to take care of while traveling.

LIGHTWEIGHT

Thanks to the use of thin and lightweight ripstop fabric combining with ultra-lightweight foam padding, ION board bags ensure best board protection at minimal weight.

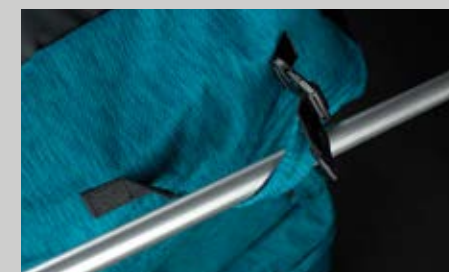

BAG_BREEZE 2.0

The Bag_Breeze 2.0 does exactly what it says on the tin! The two new TPU patches on the front and back of the bag, are combined with the mesh inserts at the front and tail to ensure great ventilation. The mesh inserts are completely EVA padded, perfect to protect your precious board. Say goodbye to a hot damp interior and hello to a breezy bag for your wet kit and board!

CONNECTIVE_HANDLE

Gone are the days of hauling your boardbag in an awkward fashion across airport floors. ION has developed the Connective_Handle as a simple solution for those tricky times. Using this accessory, you can connect the front handle of the Tec Boardbag to your trolley bag or airport trolley and calmly cruise to the check in counter.

PROFILE_TEC

based on a 8 mm basic foam layer a half circle foam profil with a thickness of 10 mm takes place; working as a kind of damping system for your board; at the same time the air ventilation works better with this construction and let your board faster get dry

RAIL_GUARD

Put your mind at ease with the new Rail_Guard feature. Covering the full rail of the board, the thick piping protects the rails from clumsy baggage handlers, over zealous taxi drivers and all other kinds of impact.

E Y E

W E A R

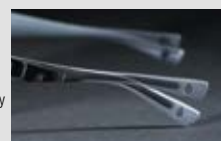

RAY | HYPE | ICON

TECHNOLOGY

FRAME

ADJUSTABLE TEMPLE TIP NEW

The RAY and HYPE models just received the new ADJUSTABLE TEMPLE TIP. Bend horizontally or vertically in order to achieve a perfect and individual fit to suit any shape of head.

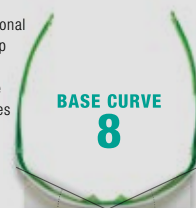

ADJUSTABLE NOSE PADS NEW

The RAY and HYPE models are equipped with the new ADJUSTABLE NOSE PADS. Move them in any direction to ensure that your sunglasses sit safely on your nose.

BASE CURVE

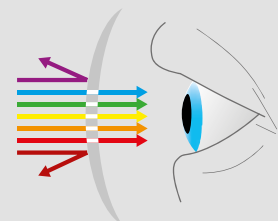

The Base Curve 8 is the most functional and first-rate sports frame. The wrap around contour provides maximum protection of the eyes. And the Base Curve 8 lens provides low light waves invasion as well as decentered lenses that eliminate distortion.

LENS

UV PROTECTION

Absorbing as much as 400 µm of solar radiation.

LENS APPROVED QUALITY

Meeting the highest and most technical standards of CE, ANSI and AS.

HYDROPHOBIC LENSES

A surface coating that allows water to run off without leaving any streaks or smudges behind.

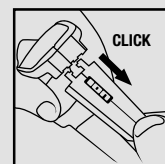

PROTECTION INDEX

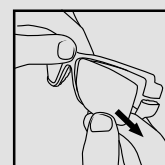

Category 3 (strong sunlight) allows a luminous transmittance of 8% – 18%, optimum for the beach and sea. Let only the 'right' light in.

CONDITION	CATEGORY	TRANSMISSION
	0	80–100%
	1	43–80%
	2	18–43%
	3	8–18%
	4	3–8%

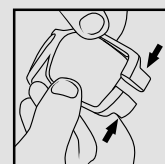

LENS REPLACEMENT INSTRUCTION

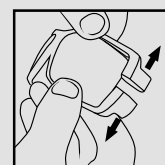

1. Pull the temple arm out of the frame

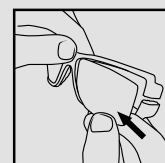

2. Open the frame

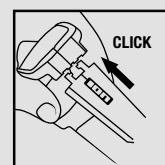

3. Remove the lens

4. Put in the new lens

5. Close the frame

6. Click the temple arm into the frame

ION x ZEISS

The ZEISS x ION collaboration has brought forth a new level of excellence in water-sports eyewear. The ION Inter_Pol lens has been developed by ZEISS and provides flawless wind detection.

ZEISS lenses are made in Italy by legendary experts at Carl Zeiss Vision Sunlens, the same company that pioneered high performance optics back in 1846. Every ZEISS lens is formed in an individual diamond polished mould for flawless clarity. To guarantee the best performance and highest quality, each lens is subjected to a rigorous 24 step testing procedure.

INTER_POL

The ION Inter_Pol lens had been developed by Zeiss, specifically for wind watersports. Spot the wind on the water surface with ease, thanks to the special lens colour that blends perfectly with the multilayered coating.

8 BASE SPHERICAL DECENTERED LENS

A wrapped lens that is excellent in strong curved frames. As it closely follows the contour of the face, it protects the eye from external interferences (wind, water, salt etc.) The lens massively reduces the distortion effect, so crystal clear vision is provided in peripheral areas.

OPTICAL PROPERTIES

The ZEISS sun lenses used in our frames, have been tested in order to achieve both advanced protection from the sun's rays and optical perfection. Through the strict and exclusive ZEISS qualification process, our laboratory analyses each model to ensure optical excellence, which is demonstrated by the engraved Z on each lens.

IMPACT RESISTANCE

Thanks to the use of top quality, shock resistant injection moulded polycarbonate, we are able to achieve outstanding resistance against impact.

UV FILTER

Despite its featherlight weight, the lens ensures a 100% UV shield to prevent eye damage caused by the sun's rays.

LIGHTNESS

Optimum lightness guaranteed thanks to the thinness of the lens and material.

ADHESION

The hard coating provides superb efficiency, and greatly contributes towards the quality of the mirror adhesion and overall durability.

HD SCRATCH RESISTANCE

ZEISS Sunlens developed one of the toughest hard coating resins in the industry. Field trials and extensive laboratory tests – the Eraser test – proved its efficiency and durability.

RI-PEL TREATMENT

- Highly functional and super hydrophobic coating on the front and back sides of the ION_ZEISS lenses
- Superior hydrophobic technology
- Durable and long lasting
- Dirt, oil, dust and water repellent
- Scratch resistant and easy to clean
- Great in all weather conditions
