RIDER KLAAS VOGET

KLAAS VOGET
HEAD OF R&D FOILING
MARKETING MANAGER

Foiling is a sensation you need to feel to understand. Initially I wasn't too interested, until our shaper Sky Solbach pulled me into some slow rolling swell with his Jetski and I rode a wave of a barely visible size for about two and a half minutes. From that moment I was totally hooked and started looking at surf I'd usually stamp as lay-day material. Just about half a year later Ken Winner and his Foil Wing designs basically opened up every lake, every bit of water for that same sensation you get when surf foiling a little ripple, just driven by a light breeze of wind. All that is just over a year ago and now I have about 25 wing foilers flying through my local bay – a place that hasn't been that busy since the early days of windsurfing. Foiling opens up so many options to have fun on the water near you without the need to drive for hours or to take planes in search for perfect conditions. The feedback on our dedicated wing boards and foils is excellent and for 2021 we have even more gear in the line-up, so let's go Wing it!

ADDICTED TO RIDE
BOARDRIDING SINCE 81

NEW FOR 2021

04

BEE

The new BEE is the ultimate watersports weapon. We've packed four different dimensions of watersports into one board: SUP Surfing, SUP Foiling, Wing Foiling and Windsurf Foiling – you decide on the setup you ride.

- › Foiling enthusiasts looking for the ultimate 'watersports toy' for multiple disciplines
- › Wing, Windsurf, SUP Foiling and standard Wave SUP in one board
- › Small surf, rolling waves, ocean swells & breezy flatwater – fun in all conditions
- › New shape by Sky Solbach

NEW FOR 2021

06

RIDER SKY SOLBACH

SKY WING

Our incredibly well received Sky Wing range grows to 5 shapes to cover all conditions and every rider. The floaty new models 5'8" and 6'0" are specially designed for an easy start and take-off in the lightest breeze with minimal board dimensions once up on the foil.

1 **The Total Beginner:** If you have no watersports experience, we'd consider you as a total beginner.
 2 **The Foil-Novice:** If you're a Windsurfer, a Kiteboarder, a Surfer or Standup-Paddler but never been on a Foil yet.
 3 **The Pre-Foiler:** You've been foiling on a Windsurfer, Kiteboard, Surfboard or SUP, then you're in this group.
 4 **The Wing-Addict:** If you've found your new passion and you're ready to enter the next level, this is you!

5 Choose Board depending on discipline
 6 Choose mast length depending on conditions & water depth (most conditions: 75 cm / Wing Foiling in rough seas: 90 cm)
 7 Aero High Aspect wings are recommended with the longer 80cm fuselage for most disciplines and conditions, but can be used with the 64cm fuselage for higher manoeuvrability when prone foiling

FOIL TECHNOLOGY

1 WINGS

- › 30° Layup orientation for maximum bending and torsional stiffness
- › Maximum performance
- › Light weight construction
- › Front wing with molded foam core and solid Carbon centre piece for bullet proof connections
- › Back wing solid UD Carbon

2 FRONT WING CONNECTION

- › Large mounting area for maximum load spread
- › No wearing out
- › Not getting stuck - No hammer needed!
- › Recess in front wings for neat fit

3 MAST

- › High grade Aluminium mast made in Germany
- › Wider chord length and special profile
- › About 30% stiffer than other Aluminium masts
- › "Feels like Carbon"
- › No loss of power when pumping

4 MAST > BASE PLATE CONNECTION

- › Formula 1 Aluminium Fusion Technology - Made in Germany
- › Glued AND screwed connection of mast and base
- › Ultra rigid
- › Highly durable
- › Feels like one piece

5 SCREWED CONNECTIONS

- › Stainless Steel Helicoil inserts in all screwed connections
- › Takes 1.2 tons of load per M8 screw
- › Bulletproof
- › No corrosion between screw and thread
- › Helicoil Replacable

SIDE VIEW TOP VIEW

CARBON WINGS

Carbon front and back wings with 30° layup for maximum performance with direct flex response and minimal weight

FORMULA 1 TECHNOLOGY

Formula 1 Aluminium fusion technology mast – made in Germany – with special profile and increased chord length for 30% higher stiffness compared to other Alu masts

AL FUSELAGE

Alu Fuselage with extra large mounting area for bulletproof connections and maximum load spread

WITHOUT POCKETS

Fuselage > Wing connection without pockets – not getting stuck, no wearing out

HELICOIL THREADS

Helicoil-threads in mast and fuselage for longevity and maximum strength connections

GLUED AND SCREWED

Glued and screwed connection of mast and base plate for extra rigid connection and maximum durability

TRACK FOIL MOUNT

Track foil mount base plate – allows tuning through the mounting position

INDIVIDUAL TUNING

Individual tuning through supplied wedges – changes angle of attack

FULLY INTERCHANGEABLE

Wings and fuselages fully interchangeable for upgrades and tuning according to conditions and rider level

FOIL WINGS

A NEW FUN WAY TO ENJOY WATER SPORTS!

RIDER AIRTON COZZOLINO

UNIT

3.3 / 4 / 5 / 6

A lightweight and simple wing that packs down small, making it perfect for riders who travel and value a straightforward, very stable setup with incredible drifting abilities!

The Unit is a wing that is perfect for waves, downwind and freeride. The team worked hard to create a shape that is incredibly stable when totally depowered, as when you're using a wave's energy and the wing is just flagging behind. One key element is maximum performance and smooth handling, even in strong and gusty conditions.

ECHO

2.6 / 3.3 / 4 / 5 / 6 / 7

A wing for powered riding in all conditions, perfect for freeriding, waves, light wind and freestyle! The perfect wing for even the very first days on the water.

The Duotone Echo is the evolution of our first foil wing, which took the market by storm last year. Outselling many other brands, the dynamic concept featured a boom, window and battens offering a superior experience. For 2020 our design team have worked hard to enhance your feelings on the water and above it! A huge advantage of the Echo compared to softer wings, is its super stiff profile, achieved by the boom, battens and the new draft control rope.
