FANATIC
SINCE 81

WHAT'S NEW WIND SURFING 2021

CRAIG GERTENBACH
BRAND MANAGER

I started windsurfing in 1981, the same year the iconic Fanatic Brand was created. 40 years is a long time for a Boardsports brand to be an industry leader, but year after year Fanatic has been at the forefront of Design, Innovation and Quality. I remember owning my first legendary Fanatic Racy Cat, watching Cesare Cantagalli cheeserolling his Mosquito waveboard to fame, admiring the Fanatic/ART World Cup team with their colourful and innovative Jag, Skate and Falcon designs. When I joined the Fanatic team in 1995 as a rider and tester, I never imagined that the brand would become such a major part of my life. 25yrs later and many amazing products, riders, shared experiences and the journey keeps going.

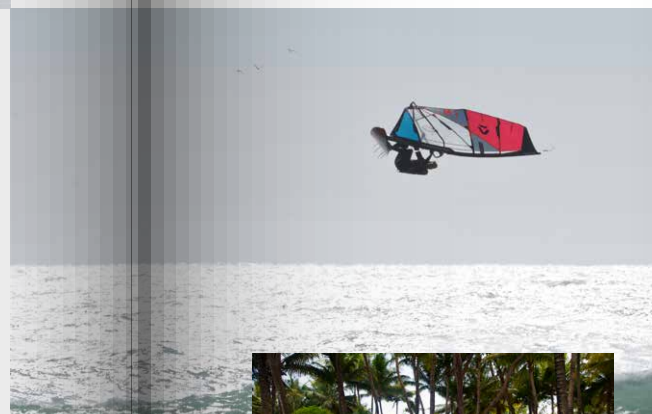

Windsurfing is still my first love, my knees still tremble on a big wave day, I can't rig up fast enough on any flatwater session, the fear of missing out is still very strong! Looking back at my own part of the Fanatic history, I'm proud to have been a part of those 25 product ranges, working with our amazing shaper Sebastian Wenzel, our marketing and product teams, as well our World Cup and national/local riders. The 9 PWA World Titles of Gollito Estredo, Victor Fernandez's 3 PWA Wave World Titles and finally in 2019 the long awaited PWA Slalom World Title for Pierre Mortefon, were the pinnacle of recent team rider successes for the brand, a great motivation for the whole team.

But team rider results are only a part of the positive motivation, I remember recently a customer thanking for us for building boards like the Gecko, which he says has extended his windsurfing career by another 10 years at least. Teaching my own kids to windsurf was pretty hard for an egoist who prefers to be right in the centre of the action himself – but well worth it some years later when my wife and both kids and myself are all whizzing around on the water together, what an amazing family sport windsurfing is, for all generations.

With the recent travel restrictions, local windsurfing has become more popular and I for one have been enjoying some great spring/summer sessions on both fin and foil, without the hassle of flying or driving long distances. Foiling in general has opened up many of the light wind locations which have been lost to windsurfing, meaning people are once again enjoying their favourite sport more often than ever before. The added effect of less travelling has a positive impact on the environment, our Ocean Minded sustainability concept keeps growing with new projects and ideas, to ensure the future generation can keep enjoying our products with the least impact possible on the planet's resources.

I'm certainly looking forward to many more years on the water and our whole team will keep working hard to make sure the Fanatic brand continues to lead and inspire!

BOARDRIDING SINCE 81

FANATIC

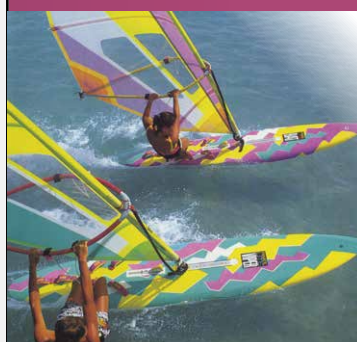

1981

Fanatic was founded by Udo Schütz.

1982

Fanatic produced the first production pintail shapes.

1986

Andrea Hoepper wins the production board World Cup in France (overall and course racing).

1985

The bestseller boards Bat and Viper were launched together with the Cat, the most successful race board.

Introduction of fibre composite construction with thermo moulded ASA foil combined.

1986

Fanatic rider Cesare Cantagalli jumps the first ever Killer Loop.

1987

Fanatic riders Knut Budig and Heiko Trebesch win nearly all the national Funboardcups in Germany.

1988

Viper and Bat beat all sales records. Fanatic moves up to one of the worldwide leading brands. Fanatic enters the Snowboard business.

FANATIC
NEW
STYLE

1991

Fanatic produces as the first manufacturer windsurf boards with the high-tech material Nomex-Honeycomb, which is normally used only in the air and aerospace industry.

1994

Fanatic takes over the brand Copello and founded a big development center in France.

The collaboration with shaper Sebastian Wenzel started.

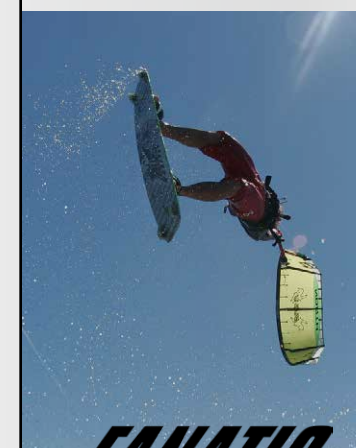

1996

New brand slogan "THE BOARDERS COMPANY"

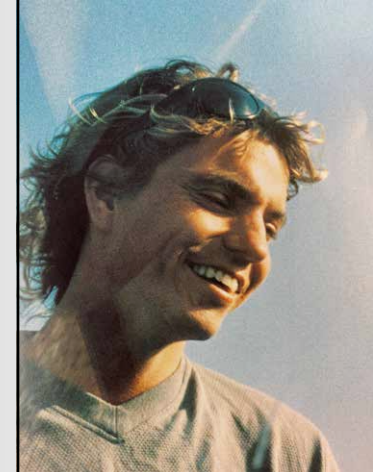

Fanatic commits as well to the trend sports Wakeboarding and Surfing.

FANATIC

1999

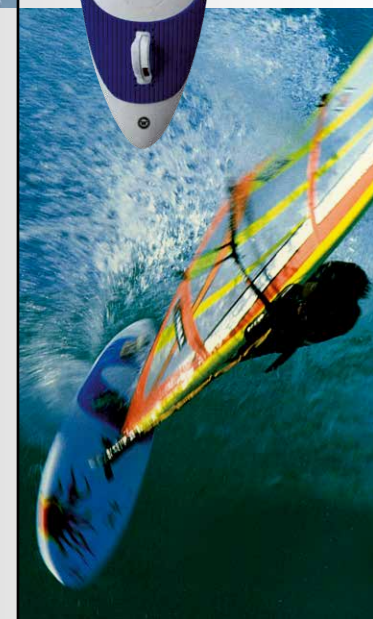

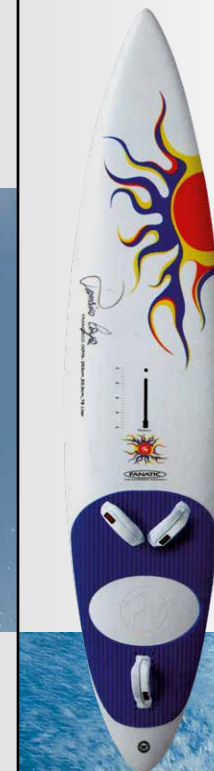

Fanatic was one of the first producers for Kiteboards on the market and once more presented the competence as a trend-sport brand.

2000

Fanatic team rider Francisco Goya takes the PWA Wave World Title!

Goya
FRANCISCO

2001

Fanatic launched the Cross board, a very successful crossover concept.

2004

The first Fanatic prototype fully designed on a high end CAD system has been shaped on the CNC machine by Sebastian Wenzel

08

2002

Fanatic launched the Falcon 99 – Thunder Tail – the first formula board with really deep and big cutouts. The Falcon dominated the racing scene for many years.

2005

The Hawk was the first Fanatic board to be mass produced from CAD design. Every single Fanatic board has been CAD designed since then and is archived in a data base.

2006

Gollito Estredo wins his first PWA Freestyle World Title.

2007

Gollito Estredo wins his second PWA Freestyle World Title.

2008

Gollito Estredo wins his third PWA Freestyle World Title.

2010

Fanatic starts with Stand Up Paddle boards.

2010

Victor Fernandez wins his first PWA Wave World Title.

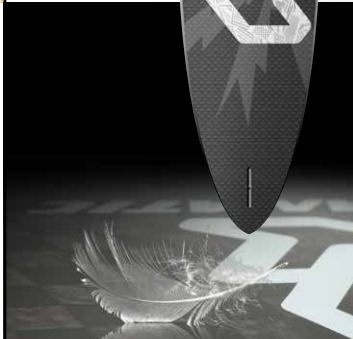

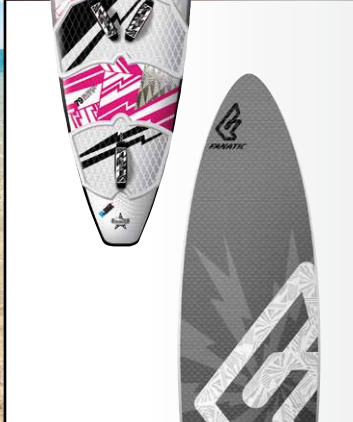

Gollito Estredo wins his fourth PWA Freestyle World Title.

Yoli de Brendt became PWA Freestyle Vice World Champion.

2011

Fanatic sets a new standard in graphics, optics and finishes with the 2011 line and introduces usage of high-tech fibres (TeXtreme® Carbon) from Formula One technologies in cooperation with Oxeon S.A./Sweden into its 2011 range.

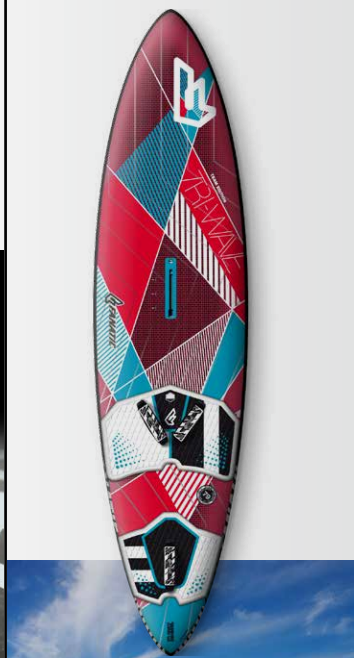

2013

First inflatable Stand Up Paddleboard

The 'TriWave' board line is introduced as well as the 'Gecko', the first thin/wide concept board for Fanatic.

Fanatic becomes the first brand to use eco-friendly cork in its board construction and also begins using coloured resin for board production.

2014

Gollito Estredo wins Freestyle World Title number six.

2016

The brand new unique Stubby concept revolutionises onshore waveboard design.

2015

Pierre Mortefon and Matteo Iachino win 4 out of 6 PWA slalom events on Falcon Slalom boards, Pierre narrowly missing out on the World Title on tie-break, but becoming PWA Slalom Vice World Champion.

2016

Fanatic claims another double World Title win after their original 2010 double win, with Victor Fernandez PWA Wave World Champion for the second time and Gollito Estredo winning his 7th PWA Freestyle World Title. Pierre Mortefon is again PWA Slalom Vice World Champion. Vincent Langer is IFCA Slalom World Champion 2016.

HOT TO POP

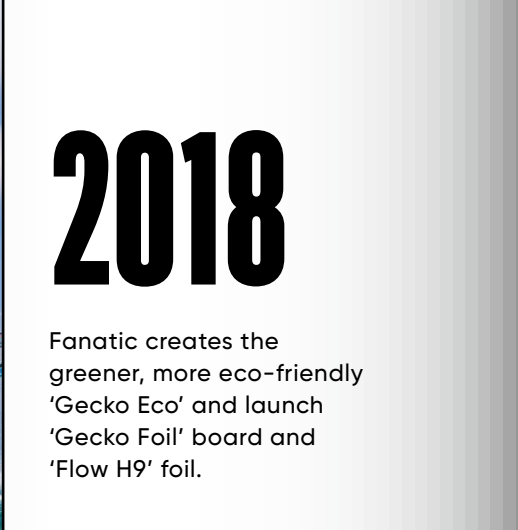

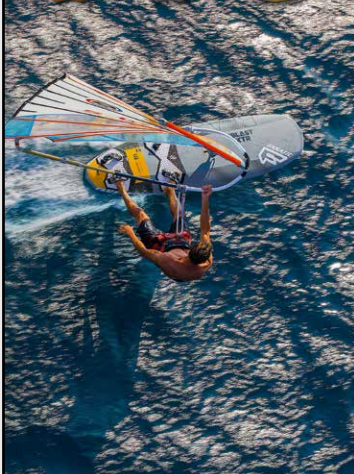

2017

Gollito Estredo wins his eighth PWA Freestyle World Title!

2017

Stubby concept was rolled out into FreeWave STB and test winning Blast shapes.

2018

Fanatic creates the greener, more eco-friendly 'Gecko Eco' and launch 'Gecko Foil' board and 'Flow H9' foil.

2018

Fanatic gains a third double World Title win with Gollito Estredo's incredible ninth PWA Freestyle World Title and Victor Fernandez's third PWA Wave World Title.

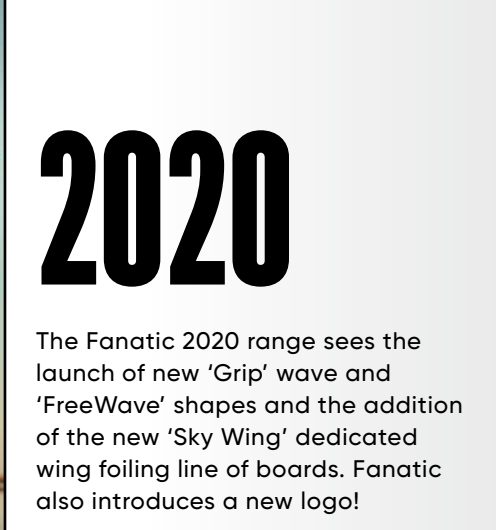

2019

Fanatic introduces the 'Jag Freerace' at Défi Wind and launch the 'Falcon Foil' performance foil board, 'Stringray' freeride foil board and 'Grip XS' wave board.

2020

Pierre Mortefon wins his first PWA Slalom World Title.

2020

The Fanatic 2020 range sees the launch of new 'Grip' wave and 'FreeWave' shapes and the addition of the new 'Sky Wing' dedicated wing foiling line of boards. Fanatic also introduces a new logo!

FANATIC

2021

Fanatic marks 4 decades in business with the 40-year collection, including the new 'Mamba' wave range, the 'Bee' crossover foiling shape and the 'Foilstyler' foil freestyle board.

NEW FOR 2021

MAMBA TE

The Mamba is the evolution of our Stubby line. Our Team has constantly evolved the original shape towards a parallel outline with more pulled in nose and tail sections. The result has a new look and covers an even wider range compared to its predecessor. The ideal board for sloppy days.

- › Evolution of the Stubby
- › Parallel mid-section, pulled in nose and tail for improved turning
- › Faster rocker line in the two larger sizes, turny bottom shape for the small ones
- › Keeps speed in sloppy waves, but now improved performance in down the line conditions
- › Special MFC Victor Fernandez pro model thruster fins

MAMBA TE THE NEW STUBBY

DRAWN IN NOSE AND TAIL OUTLINE

- BOOSTS MANOEUVRABILITY
- QUICKER RESPONSE

PARALLEL MID SECTION

- LOW DRAG
- EARLY PLANING
- KEEPS SPEED WELL

104	60.5	224	UP TO 6.8M ²	

NEW FOR 2021

RIDER: MICHAEL ROSSMEIER

FOILSTYLER

The foilstyler was designed as a Freestyle foiling board, but has quickly shown that is a great board for foilers of all levels, looking for a lower volume board for maneuvers.

- › Compact and loaded with volume for an early flight
- › Bevelled nose rails for forgiving touch-downs
- › Track Foil Mount

RIDER: ADAM LEWIS

BEE

The new BEE is the ultimate watersports weapon. We've packed four different dimensions of watersports into one board: SUP Surfing, SUP Foiling, Wing Foiling and Windsurf Foiling – you decide on the setup you ride.

- › Foiling enthusiasts looking for the ultimate 'watersports toy' for multiple disciplines
- › Wing, Windsurf, SUP Foiling and standard Wave SUP in one board
- › Small surf, rolling waves, ocean swells & breezy flatwater – fun in all conditions
- › New shape by Sky Solbach

VIPER HD:

Our new "indestructible" Version of our entry board, specially designed with windsurfing schools in mind. Built in Thermoform construction to bring new riders into the sport for years to come.

FOIL TECHNOLOGY

1 WINGS

- › 30° Layup orientation for maximum bending and torsional stiffness
- › Maximum performance
- › Light weight construction
- › Front wing with molded foam core and solid Carbon centre piece for bullet proof connections
- › Back wing solid UD Carbon

2 FRONT WING CONNECTION

- › Large mounting area for maximum load spread
- › No wearing out
- › Not getting stuck - No hammer needed!
- › Recess in front wings for neat fit

3 MAST

- › High grade Aluminium mast made in Germany
- › Wider chord length and special profile
- › About 30% stiffer than other Aluminium masts
- › "Feels like Carbon"
- › No loss of power when pumping

4 MAST > BASE PLATE CONNECTION

- › Formula 1 Aluminium Fusion Technology - Made in Germany
- › Glued AND screwed connection of mast and base
- › Ultra rigid
- › Highly durable
- › Feels like one piece

5 SCREWED CONNECTIONS

- › Stainless Steel Helicoil inserts in all screwed connections
- › Takes 1.2 tons of load per M8 screw
- › Bulletproof
- › No corrosion between screw and thread
- › Helicoil Replacable

SIDE VIEW TOP VIEW

CARBON FRONT WINGS

Carbon front wings with 30° layup for maximum performance with direct flex response and minimal weight

BACK WING

Full Carbon back wing with winglets – light, fast and with great track stability

MAST

Formula 1 Aluminium fusion technology mast – made in Germany with special profile and increased chord length for 30% higher stiffness compared to other Alu masts

FUSELAGE

Alu Fuselage with extra large mounting area for bulletproof connections and maximum load spread

HELICOIL-THREADS

Helicoil-threads in mast and fuselage for longevity and maximum strength connections

GLUED AND SCREWED

Glued and screwed connection of mast and base plate for extra rigid connection and maximum durability

WITHOUT POCKETS

Fuselage > Wing connection without pockets – not getting stuck, no wearing out

TRACK FOIL SYSTEM

Track foil system base plate

BAG

Flow Foil Bag including covers for wings, mast and fuselage for safe transport of your foil and all accessories

*Note - Wings are delivered with individual covers, Mast & Fuselage set comes with foil bag

OCEAN MINDED

LET'S FACE IT

Our sport depends on a healthy environment – we all do! But up until today our sport is not the most sustainable thing in the world. We're consuming a large number of fossil fuels to develop, produce, transport and ultimately also get to the spot and ride our boards. Being out there itself is clean and the best we can do – but the way to get there leaves a trail. We at Fanatic are well aware of this and we're taking action to reduce our trail as much as we can – and more!

In order to OFFER YOU AN AFFORDABLE, long lasting PRODUCT THAT'S AS ECO-FRIENDLY AS POSSIBLE, we're optimizing the entire process to save fuels, plastics and energy on the production side and support carbon offset projects to balance our consumption on the other side. It's a continuous process we're pushing together with our partners to protect what we love.

CARBON OFFSET: We calculate and offset the carbon emissions caused by our products and processes by supporting recognized carbon offset projects, to make our products 'Carbon Neutral'.

R&D: In order to develop as efficiently as possible, Every single prototype is developed by our R&D Team and built by Sebastian Wenzel – all the knowledge stays in-house. Our huge database allows minimal prototyping to the final production shape.

MATERIALS: A major factor for sustainability is quality and longevity. No one wants to buy a board that looks like a tree but also rides like a log or breaks like a match. We implement natural elements WHEREVER possible, but focus on quality. Our Gecko Eco – built with Flax, Wood & Cork Layup – shows what's possible and we're excited to further expand the use of natural components.

PRODUCTION: Our boards are built at the leading production facility of the industry – not only in terms of quality, but also in terms of social responsiveness and sustainability.

PACKAGING: We've created a task force in order to optimize packaging to the minimum, using recycled materials, replacing single-use plastics with paper/cardboard and packing in a way to make recycling convenient for our customers.

SHIPPING: We're constantly improving ways to combine shipping from our production lines to our centralized warehouse in Europe and other key locations for our worldwide distribution. Together with our Boards&More partner brands ION and Duotone we're making sure our products make their way to you with the smallest fuel consumption possible.

FIND OUT WHAT WE'RE DOING TO PROTECT WHAT WE LOVE. [FANATIC.COM/WINDSURF/OUR-WORLD/ABOUT-US/SUSTAINABILITY](https://www.fanatic.com/windsurf/our-world/about-us/sustainability)

CHARACTER	We know from experience with our own kids, that sharing the thrill of windsurfing with the next generation is so much fun! So we created the Ripper rig – a compact, light sail design that performs great, is effortless to use, and will have them ripping in no time!	Easy to sail and effortless to uphaul, the Ride SUP rig is the ideal solution for light wind windsurfing on SUP boards (with mast track insert), or Windsurf / SUP boards such as our Viper Air and Ripper Air. All components are designed to make rigging as simple as possible, so you can just rig and go in as little as 30 seconds!	Simplicity is key with the Fanatic Ride rig, our modern performance sail that is designed to work with a wide range of boards. Easy to rig and trim, with a great wind range, these complete rig packages are the ideal partner to get you from beginner to winner with as much fun as possible.
DESIGN FEATURES	Compact sail design (short mast for easy uphauling) Durable but light Dacron Monofilm construction Lightweight one batten sail design Extra light mast and boom components Entire rig comes in an ultracompact bag that is easy to transport / store	Light Dacron sail for a smooth power delivery and a light feeling 3-piece compact boom works as a normal boom but can be stored more easily Mastbase extension and boom with markings help setup the sail easily Entire rig comes in an ultracompact bag that is easy to transport / store	Modern performance shape – a great all-round shape that will suit both modern and older style boards, with a huge wind / trim range High quality materials – best combination of durable yet light weight construction, especially in key stress areas Compact luff / boom length – makes the sail more compact and keeps components to minimum Entire rig comes in an ultracompact bag that is easy to transport / store
